

# Mobile Emergency Shower for Unmatched Flexibility

The BROEN-LAB Mobile Emergency Shower is tailored for the ever-changing environments of construction sites, projects, and temporary workplaces, because of its unmatched flexibility. Equip your team with portable safety that stands the test of time.

## **Frost-proof**

The mobile emergency shower is made for outdoor use and can be used in areas where outside temperatures go as low as -20°C.

## **When water is not guaranteed**

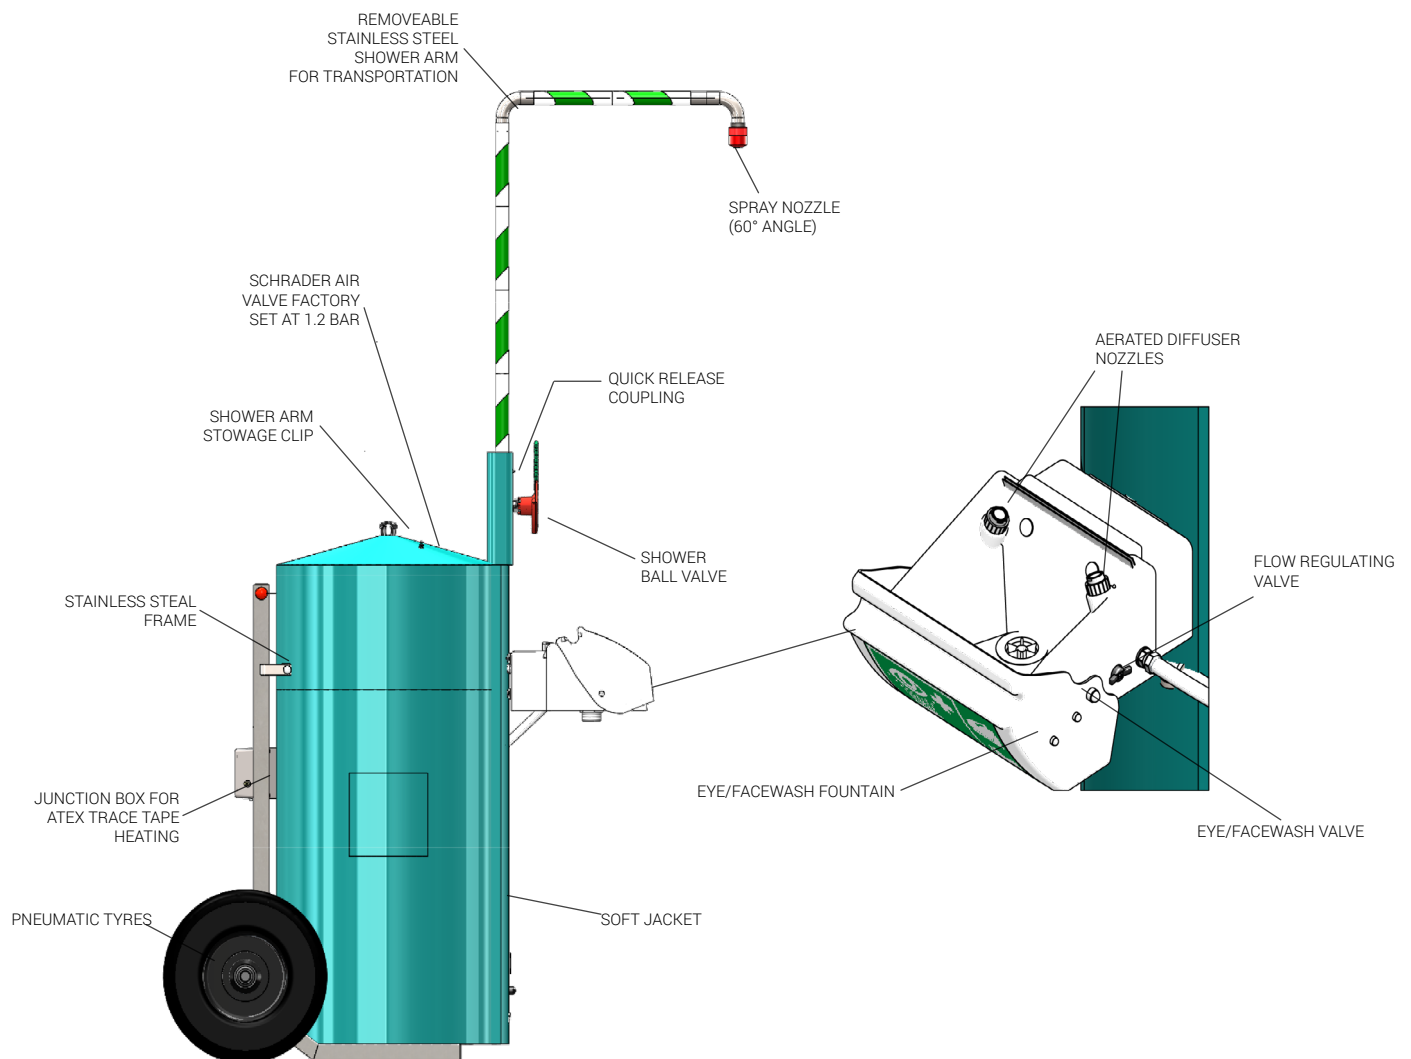

The mobile emergency shower comes with a 114 l water tank, so it can be used where there isn't a water supply and are essential where there is a lack of water pressure or inadequate flow rate.

## **High level of functional safety**

The bottles are manufactured in accordance to EN 15154-4. They are quick and simple to use, and can be operated by the injured person without assistance.

# Flexibility is Key

The Mobile Emergency Shower offers unmatched flexibility:

- **Mobile Design:** Easily relocated with a 114-litre tank and removable heated jacket, ensuring operation in any weather.
- **Durable & Dependable:** Features a polypropylene-lined tank and stainless-steel frame, perfect for areas lacking permanent installations.
- **Immediate Response:** Provides over 1½ minutes of continuous water flow with simple activation and dust-protected eye wash.
- **Versatile Safety:** Ideal for sites requiring quick setup and uncompromised safety solutions.
